SCHOOL STORM SIGNALS.

Revised April, 1897.

For all Schools.

The Signal, 2—1—2, will be given four times upon the fire alarm bell and whistle at 7.45 A. M., for suspension of the morning session, and at 12.30 P. M., for suspension of the afternoon session.

For Grades I—V,

The Signal, 2—1—2, will be given four times upon the fire alarm bell and whistle at 8.15 A. M., for suspension of the morning session, and at 1 P. M., for suspension of the afternoon session.

Testing Signals

For the purpose of testing the condition of the fire alarm telegraph, one blow will be sounded on the gong and bell daily at 1 and 7 o'clock P. M. Saturday night one round of some box at eight o'clock.

Special Signals.

A recall signal will be given after fires are out by striking two blows on the gong and bell.

Assembly.

The call for the assembly of the department will be seven blows on the gong and bell, to be repeated three times, when the members will assemble at the house of Hose of No. 6, without apparatus, and await further orders.

Directions in Case of Fire.

Keys to all the boxes may be found at houses near the boxes. See notice at each box. Be reasonably sure there is a fire before sounding an alarm. Do not give an alarm for a fire seen at a distance, as all needless alarms are an unnecessary expense to the town and should be avoided. To give an alarm, open the door of the box, and a hook will be found on the face of the inner door; pull this way down and let go. Wait a few seconds, and if you hear no clicking or ringing of the small bell inside, go to the next nearest box and do the same, and report the first box out of order to the superintendent of fire alarm or the chief of the department. After giving an alarm, remain at the box to direct the firemen to the fire. All other alarms and signals, except the first, are given only by the engineers.

A NEW THING FOR NEW ENGLAND.

The Acme Heater and Air Circulator

USES ONLY WASTED HEAT.

ECONOMY AND UTILITY COMBINED.

The ACME HEATER is designed for connection with stove or furnace, and solves the problem of utilizing the enormous waste of heat that goes up the chimney. It may be located between stove or furnace and the chimney, either in adjacent room or on any floor above. It lessens fire risk, and by its scientific principles of heating the cold air from the floor it gives a perfect circulation of air through the room, thus securing even temperature. Half the coal now used in many stoves can be saved, or an extra room may be warmed, and in some cases both results are accomplished with only one fire.

It gives satisfaction beyond the most sanguine expectations. The strongest testimony in its favor is the fact that out of thousands sold not one has been taken out. Think of it! In the inventor's home town there is over one in use to every eight persons. It is sold on

its merits. If it does not do as represented it will be taken out and money refunded.

Patented by A. W. Brock, Alma, Mich., in the United States and Canada. Address all orders, and inquiries regarding prices, terms and circulars to the New England agent and manufacturer,

J. L. BUXTON,

Milford, Mass.

RATES OF POSTAGE.

1ST CLASS.—Letters, and all mail matter sealed so that it cannot be examined without breaking the seal. Postage 2 cents per ounce or fraction, for United States and British Provinces (except Newfoundland). At least one rate (2 cents) must be prepaid to insure forwarding. Postal cards, U. S. and British Provinces, 1 cent.

The use of the hand stamp for personal communications, as the stamping of a receipt or credit on a bill of account, price list with prices added in writing, matter produced by the type-writer, constitutes the matter first class.

Letters and postal cards can be forwarded from one post office to another without additional prepayment of postage. All other matter can be forwarded at the request of the party addressed, when the postage will be collected on delivery.

2D CLASS.—All newspaper and other periodical publications which are issued at stated intervals, and as frequently as four times a year, from a known office of publication and with a paid list of subscribers. Rate 1 cent per pound, and is for the benefit of publishers and news agents and of dealers only. Publications of this character can be mailed by the public at the rate of one cent for each four ounces or fraction; full prepayment of postage compulsory.

3D CLASS.—Books (printed), circulars, labels, photographs, proof sheets, and corrected proof sheets and MS. copy accompanying the same, blank checks, drafts, insurance policies and other legal papers, hand-bills, posters, and all matter of the same general character. Rate, 1 cent for each two ounces or fraction; full prepayment of postage compulsory. Seeds, cuttings, roots, bulbs, etc., may be forwarded in the mails for the United States, with postage prepaid at 3d class rate, but matter of this nature for Canada must be prepaid at 4th class rates. The date of issue, name of the addressee, the name of the sender, may be written on a circular, or the correction of a typographical error, without subjecting it to letter rate. Reproductions from Hectograph, Papyrograph, and Electric Pen may be sent through mails as 3d class matter. The limit of weight of packages of this class is 4 pounds, except in the case of single volumes of a book, to which there is no limit of weight.

4th CLASS.—Patterns, address tags, bill heads, letter heads, playing cards, blotting paper bearing printed advertisements, merchandise, metals and all other matter not included in the first, second and third classes. Rate 1 cent for each ounce or fraction. Full prepayment of postage compulsory. The limit of weight of packages of this class is 4 pounds. The sender may attach to such articles, by tags or label, any marks, numbers, names or letters, for purpose of description.

UNMAILABLE.—All packages containing poisons, explosives, substances exhaling bad odor, liquids (ardent, vinous, spirituous or malt), obscene matter of any description, dunning notices on postal cards, and all articles which from their nature are liable to damage the mails or injure any person handling the same, cannot be forwarded in the mails.

DOMESTIC MONEY ORDERS:—\$5 for 5 cents; \$10—8 cents; \$15—10 cents; \$30—15 cents; \$40—20 cents; \$50—25 cents; \$60—30 cents; \$70—35 cents; \$80—40 cents; \$100—45 cents.

INTERNATIONAL MONEY ORDERS,—\$10 for 10 cents; \$20—20 cents; \$30—30 cents; \$40—40 cents; \$50—50 cents; \$60—60 cents; \$70—70 cents; \$80—80 cents; \$90—90 cents; over \$90 and not exceeding \$100—\$1.

SPECIAL DELIVERY:—A Special Stamp of the face value of ten cents, attached to any article of mailable matter, in addition to the lawful postage of such article, entitles it to immediate delivery within the carrier delivery limit of any Free Delivery Post Office, and within one mile of any other post office in the United States. The law permits the delivery by mail of letters bearing *only* the Special Delivery Stamp, but the ordinary postage due will be collected of the addressee on delivery. Letters arriving from foreign countries and bearing United States Special Delivery Stamps, are entitled to special delivery.

Foreign Postage.

CANADA POSTAL TREATY:—By the conditions of this treaty, all packages of merchandise (heretofore excluded) addressed to Canada, if presented for mailing, in such form as to be capable of easy inspection, can be forwarded in the mails to the office of address, if postage is fully prepaid at the rate applicable to the same in the domestic mails. Such packages will be examined by the Canadian customs officials, and if the package contains dutiable matter, the amount of duty will be collected on delivery of package.

MEXICO:—Matter mailed in the United States addressed to Mexico is subject to same rules and conditions as if it were addressed for delivery in the United States, except that articles of merchandise, not sent as *bona fide* trade samples, are required to be sent by parcel post.

To Austria, Aden (Arabia), Argentine Republic, Belgium, Bermuda, Brazil, British Guiana, British India (Hindustan and Burmah), British New Guinea, Denmark, Egypt, France, French Colonies, Germany, Greenland, Great Britain, Greece, Hong Kong, Italy, Jamaica, Japan, Natal, Netherlands, Newfoundland, New South Wales, New Zealand, Norway, Patagonia, Persia, Portugal, Russia, Queensland, Servia, South Australia, Spain, Sweden, Switzerland, St. Croix, St. John, St. Thomas, Tasmania, Transvaal, Turkey, Victoria (Australia), West Australia:—prepaid letters per 1-2 oz., 5 cents; postal cards, 2 cents; newspapers and books, 1 cent for 2 oz. or fraction. Articles of Merchandise, except *bona fide* trade samples, cannot be sent in mail to Foreign Countries, except they be prepaid at letter rate of postage. Limit of weight on samples, 8 3-4 ounces; limit of length, 12 inches; breadth, 8 inches; depth, 4 inches.

GENERAL DIRECTIONS:—Mail matter should be addressed legibly and completely, giving street and number, or box number, postoffice, and the name of the State in full; and to secure return in case of misdirection or non-delivery the name and address of the sender should be written or printed on the wrapper.

Money Order War Tax.—To above rates for Domestic Money Orders add two cents to each order. This is a war tax and applies to Domestic Money Orders only.

A NEW THING FOR NEW ENGLAND.

The Acme Heater and Air Circulator

USES ONLY WASTED HEAT.

ECONOMY & AND UTILITY COMBINED.

The ACME HEATER is designed for connection with stove or furnace, and solves the problem of utilizing the enormous waste of heat that goes up the chimney.

It may be located between stove or furnace and the chimney, either in adjacent room or on any floor above. It lessens fire risk, and by its scientific principles of heating the cold air from the floor it gives a perfect circulation of air through the room, thus securing even temperature. Half the coal now used in many stoves can be saved, or an extra room may be warmed, and in some cases both results are accomplished with only one fire.

It gives satisfaction beyond the most sanguine expectations. The strongest testimony in its favor is the fact that out of thousands sold not one has been taken out. Think of it! In the inventor's home town there is over one in use to every eight persons. It is sold on its merits. If it does not do as represented it will be taken out and money refunded.

Patented by A. W. Brock, Alma, Mich., in the United States and Canada. Address all orders, and inquiries regarding prices, terms and circulars to the New England agent and manufacturer,
